

Bigger, Better Blast Freezers

EXPERIENCE POWER:

Big Box blast freezers contain double the airflow and double the refrigeration capacity.

EXPAND CAPACITY:

Blast freezing increases food preservation and shelf life.

EXPAND EFFICIENCY:

Operates from a 3PH power supply and run amps range between 15 and 25A per phase.

LOAD CAPACITY:

Accommodates approx. 1.5t load capacity in

COMPRESSOR CAPACITY:

A Big Box blast freezer provides 18kW, cooling at -25°C suction temperature.

BIG BOX BLAST FREEZER UNITS

Ensure rapid freezing of temperature-sensitive goods for a longer shelf life.

25° 10° 5° 1° -1° -30°

HEAT REJECTION CAPACITY:

The Big Box blast freezer is fitted with a 43kW condenser. This more than doubles the heat rejection capacity!
