

# COOL FRESH & UNDER CONTROL

## THE COLD ROOM:

TEMPERATURES BETWEEN 0° and 5°C

- Energy efficiency
- Single phase 220v
- Power draw ranges between 8 and 9 amps
- Power consumption from: 1.2kw @70% duty cycle

## THE FREEZER ROOM:

TEMPERATURES BETWEEN 0° and -20°C

- Energy efficiency
- Single phase 220v
- Power draw ranges between 7 and 10 amps
- Power consumption from: 1.07kw @70% duty cycle
- Hot gas defrost
- No large spike in room temperature after every defrost cycle
- Short defrost period of only 1min every 2 hours - compared to standard freezer which can total up to 5 hours of defrosting time within the same 24 hour period

## SINGLE PHASE UNITS

### BUILT IN FLOOD LIGHT

Low energy LED light for packing and unpacking convenience

### FLAT CHECKERED FLOORING

Flat aluminium flooring for easy trolley access

### LOW NOISE POLLUTION

Low decibel emission thanks to low rpm motor

### VARIETY OF PERISHABLES

Whatever the perishable, we have the single phased answer at the fraction of the cost

Rent your cooler or freezer today:  0861 44 74 74.
